**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a resident of Buhler Kansas and I would like you to reconsider your actions with regards to removing the Legislations that are in place to help local broadband Internet companies compete with the large companies such as AT&T.

These local broadband companies help our rural communities to grow. The fact that they these companies are local means that the money that they do make is going back into the local community and they employ local people.

Please consider this before you remove any Legislations that will help our local Broadband companies to compete against the Giants in the World of communications.

Kind regard,

Martin Compton
